NMEA

CESAR

*Plug and Play Solution to
Make Any Car a Smart Car*

Get the location
of your car from
anywhere

IN CASE OF EMERGENCY

- Automatic crash detection establishes a mobile connection to the emergency call service
- Location data is sent over an SMS

- Low-budget components
- Secure, embedded software
- Low energy consumption

Easy to implement to any car:

1. Insert CESAR to your cigarette lighter outlet
2. Insert the dongle to a safe location
3. Machine to machine communication takes care of connections and upkeep
